

PROJECT SUMMARY

DIGIVOGUI is a Virtual Exchange project designed to enhance the personal and social competencies of young people, equipping them with the necessary tools for active citizenship and informed decision-making in their personal, educational, and professional lives. The project is structured around three key pillars:

- Conceptual and Methodological Development – Creation of theoretical a Theoretical Manual and a Practical Manual.
- Training for Youth Workers – Development of a MOOC (Massive Open Online Course) specifically designed for youth workers, providing them with structured training and resources to effectively guide and support young people.
- Interactive Online Course for Youngsters – Creation of a separate MOOC for youngsters, designed to help them develop key personal and social competencies.

By integrating digital media and innovative methodologies, DIGIVOGUI seeks to empower both youth workers and young people, ensuring they have the skills necessary for personal growth, academic success, and professional fulfillment.

DIGIVOGUI IN ACTION
